

Peter Hall, Chief Executive Officer of Al Hassan Engineering Co, tells OGR that continuous vigilance and communication is a must to ensure the ongoing and active protection of people's well-being

**THE SULTANATE HAS SET VERY HIGH STANDARDS FOR HSE PRACTICES.**

This should be seen as a tribute to the people of the Sultanate and through Al Hassan Engineering Company (AHEC's) ongoing focus, training and implementation of world-class practices, we are in a way helping the continual development of this much respected philosophy.

**ANY SPECIFIC AREAS THAT YOU BELIEVE WOULD NEED AN ATTENTION WHEN IT COMES TO HSE?**

Every organisation can do better; continuous vigilance and communication is always needed in order to ensure the ongoing and active protection of our people's well-being.

**WHAT ABOUT YOUR COMPANY'S OWN TRACK RECORD AS FAR AS HSE IS CONCERNED?**

We are extremely proud of our performance in this area – Health and

safety of our people is our top most priority. Our policies and philosophies are actively propagated throughout our whole organisation and at all levels. Our record and reputation in the market bears testimony to this.

**WOULD YOU LIKE TO COMMENT ON THE MAN-HOURS YOUR COMPANY HAS COMPLETED WITHOUT ANY LOST TIME INCIDENTS (LTIS)?**

AHEC has achieved 11.3 million man-hours without any LTI on PDO projects, while for non-PDO projects, it has achieved 33.1 million man-hours.

**YOUR COMPANY HAS RECEIVED MANY AWARDS FOR HSE PRACTICES. WOULD YOU LIKE TO COMMENT?**

To achieve recognition in this area is something that we are delighted to receive, and hopefully it sets a good example for others to follow and ultimately must improve for the entire industry as a whole.
