Dear Rao,

On behalf of PDO Gas Department, I hereby express my sincere appreciation for the Far Excellent services provided by Al-Hassan Engineering Company.

Burhan West Pipeline Project was initially scheduled for 16months completion which it self is a very tight schedule considering vast scope of Engineering, Procurement and Construction including EPC of 33KV OHL on Concrete Poles and very complex due to its scattered nature plus involvement of huge journey.

This is the First EPC 33KV OHL Project(In addition to the DSS Pipelines and On plot works) on Concrete poles in PDO Awarded to AHEC.

All the above works have been carried out under very tight schedule with Very High HSE, Journey management and Quality standards in spite very hectic work, harsh environment and pressure to complete the work.

Al Hassan managed to deliver this Fast track Project 5Months ahead of Scheduled duration on War footing basis. All this was achieved with in a very short period without Single Lost time Incident which is again a real commendable achievement.

SNGP and OHL Shutdown works also carried out by Al-Hassan in a very systematic and smooth manner with very Precise planning which is also a commendable task.

I take this opportunity once again to thank the whole Al-Hassan team for their Dedication, Sincerity and Hard work with focused approach in achieving these tremendous results.

These results are the Best Example of applying Hearts and Minds.

I wish all the good luck and success to the team for the Future projects to Come.

Yours faithfully,

For Petroleum Development Oman LLC.
